Brahms -- The Shorter Piano Pieces (Alfred Masterwork Editions)

Synopsis

During the latter part of his life, Brahms wrote only sets of relatively short pieces. With their formal and stylistic perfection, they are among the most valuable of the late-Romantic additions to piano repertoire. Included in this 128-page edition are 30 pieces by Brahms, preceded by a helpful introduction which contains definitions of the ballade, rhapsody, capriccio and intermezzo.

Customer Reviews

I was looking for a book with the beautiful Intermezzo in A major and this book had it. I thought shorter works would be good to tackle myself and maybe for students

I have been looking for a certain Brahms piece, and, thanks to another reviewer, learned it was in this book. I promptly ordered it. I'm thrilled to have found this book, so reasonably priced too. My only complaint is that the book came creased and appeared a bit shop-worn. Since it's not a gift, but for me, I decided not to contact ---my books tend to get worn anyway.

EXCELLENT IN EVERY RESPECT! SELLER A+++

The sheet music has great preface which gave a in-depth background on Brahms' creative life and motif on these pieces. The pedal points are very helpful!

I like this edition because of the research and the fingering they provide. This particular edition, dedicated to Brahms shorter pieces is particularly enlightening with reference to fingering his piano pieces. I think the editor has done a superb job.
