This book will flee through the beginning of the invasion of the Japanese in 1931-1939, when Germany and the Soviet Union signed a nonaggression pact that opened the war and the years of power, attacks, battles and falling, defeat, death to surrender is packed with images of war and covers all the key events that makes it easy to jump back in history. I find it simply hard a huge list of dates at random from a historical period and try to remember everything. The book begins with the first conflicts in Asia, there are plenty of facts about Adolf Hitler and his political career. In 1939 France and Britain declared war on Germany in response to the invasion of Poland Germany. After evading most of Western Europe Hitler he was eager to invade Britain. One can find a lot made of the time such as the Cairo Declaration, D-Day, the liberation of Paris, how and when did Soviet surrounding Berlin, the suicide of Hitler, the atomic bomb on Hiroshima.

This book is especially helpful for students. After reading this book, you will understand everything you need to know about World War II to pass any history test you will see in college or high school. It is packed with pictures from the war and covers all key events that makes it easy to jump back into history. I find it hard to just have a huge list of random dates from a historical period and try to remember everything. By focusing on 50 parts of the war, memorizing this information was a snap!

I got this book for my son, he likes to read about the history. After reading this book he has understood why this war began and how it was fought, and ultimately won, by the Allies. This war was the bloodiest armed conflict in history. This book helps pass on knowledge of our parents and grandparents, and teaches us and our kids about terror of war.

Well, I had read many books on World War II and I can say that this book contains the whole moments of that time. World War II had made a great impact in this world. It is very interesting to know about the history of World War II and how it happened. Sixty million military and bloodiest army conflict had great role in destroying our world and many of them were victims too. You will get to know about many facts about Hitler and how he ruled over the country. There were some pictures of the war which was very important and helped me to imagine all the moments of that time. If you really want to know about World War II then this book will be best for you. You will also know about

other hidden roles but had made great impact in World War II. The author had done a great work by including pictures with exact date and time.

I am happy to find such good books. I am happy that people want to remind of those, who were heroes during hard War times. We must never forget them. We should always remember our veterans, our heroes and be proud to be a part of nation, which gave so many heroes to this world.!

Sometimes real events, real history, seems like a fantasy. That is the sole purpose of the elite that controls the planet; create an imaginary world so people can't really determine what is real or unreal. The whole industry of entertainment collaborates in this determination, powerful and occult members and famous people work hand to hand to fulfill this project. People have been taught since childhood lies, half-truths about world history, scholar texts come from the same elite that controls the world and sell lies. If you really want to know about some events in World War 2, or you want to acquire a different perspective about the conflict, you have to read this book. It's time to open our eyes to reality, it's time to confront the liars that still control the world we live in.

This is a great book which depicts the most important events of World War 2. By reading it I learned new things about the Pearl Harbor attack and about the atomic bomb that was dropped on Hiroshima on August 6, 1945. Because of the bombing of Pearl Harbor by the Japanese, USA entered World War 2 after the "Infamy speech" delivered by president Roosevelt. The atomic bomb dropped on Hiroshima lead to the deterioration of the relations between USA and the Soviets. All in all a very interesting read!

A great book. If you love history then this is a book for you. This book walks you through its beginning from the invasion of Japan in 1931 to 1939 when Germany and Soviet Union signed non-aggression pact which kicked-off the war and to the years of power, attacks, battles, and fall, defeat, death to surrender. This is such an informative book about World War 2. It's amazing to note that some of the details mentioned here were not mentioned in our History class! Very detailed, very insightful, plus with the classic photos too! Excellent book to grab
