Carpintería: Herramientas, Anaqueles, Paredes, Puertas (Spanish Edition)

Synopsis

"Carpentry: Tools, Walls, Shelves, & Doors" is a new Spanish language book that takes readers, step-by-step, through a variety of carpentry projects. Get expert advice on everything from what materials and tools you'll need to design help. This book is beautifully illustrated with detailed, full-color photos showing the key aspects of each project.

Customer Reviews

I'm in an intermediate Spanish class. One problem :the teacher is totally deficient in Spanish vocabulary relating to tools. This book now rotates around the class to a different student each week, each student picking a favorite tool (herramienta del dia) and explaining (in Spanish) its use to the class. The book a great source of tool vocabulary and an enjoyable learning activity.

My husband is planning to do some sheetrocking in our house, and though he's done a bit before, wanted some good instructions (in Spanish!) This book did the job for him.

Ok

very good
